

Segment Type Naming Rules

- Loop: start \approx end (≤ 50 m) AND length ≥ 0.8 km
- Connector: length < 0.6 km
- Trail Segment: all other lines

Name Pattern = <Type> - <Region> <Compass>

Examples:

Loop - Wildcat Dome SW

Connector - Sandflats NE

Trail Segment - Area 51 E

Compass: N, NE, E, SE, S, SW, W, NW (from start→end bearing).

Colors: preserved from original GPX (no changes).

TR Label Affinity: if line passes within ~ 120 m of a numbered or named trail waypoint, we append the nearest label, e.g., “— TR-50B” or “— Jet-A-Way TR”.
